如何举例?

举例是雅思作文的重要扩展手段

常见举例错误

例如：

Some people think schools should only teach students academic subjects. Others think schools should also teach students how to discriminate between right and wrong. Discuss both views and give your own opinion.

主体第二段： **Schools can impart some important virtues into students, which enable them to make good use of their knowledge to contribute positively to society. （中心句）** **If one understands the value of loyalty, he or she will not sell confidential documents of his or her employer to other companies.** Engineers who are conscious of social responsibilities are more likely to design safe products which benefit consumers. Students who do not have a moral compass cannot achieve success, even though they perform well at school.

主体第二段： **Schools can impart some important virtues into students, which enable them to make good use of their knowledge to contribute positively to society. （中心句）** **If one understands the value of loyalty, he or she will not sell confidential documents of his or her employer to other companies.** Engineers who are conscious of social responsibilities are more likely to design safe products which benefit consumers. Students who do not have a moral compass cannot achieve success, even though they perform well at school.

分析:

主体第二段的中心句是说学生懂得美德，能够很好地为**社会**做贡献。但是后面的例子说的是年轻人将机密材料卖给其他公司赚钱，这和社会没什么联系

主体第二段： **Schools can impart some important virtues into students, which enable them to make good use of their knowledge to contribute positively to society. （中心句）** If one understands the value of loyalty, he or she will not sell confidential documents of his or her employer to other companies. **Engineers who are conscious of social responsibilities are more likely to design safe products which benefit consumers.** Students who do not have a moral compass cannot achieve success, even though they perform well at school.

主体第二段： **Schools can impart some important virtues into students, which enable them to make good use of their knowledge to contribute positively to society. （中心句）** If one understands the value of loyalty, he or she will not sell confidential documents of his or her employer to other companies. **Engineers who are conscious of social responsibilities are more likely to design safe products which benefit consumers.** Students who do not have a moral compass cannot achieve success, even though they perform well at school.

这个题目很明显是关于中学生的

那么关于工程师的例子就不是很恰当

总结

1. 举例注意题目和中心句的限定

我们之前说过，举例是扣题的一个重要手段。

在举例的时候，一定要注意题目的主要论述对象是什么。

如何修改?

可以改成:

Students who are conscious of social responsibilities are more likely to design safe products which benefit consumers, **if they work as engineers** for the manufacturing sector in the future.

例如主体第三段：In my opinion, students cannot be successful if they are not able to distinguish right from wrong.（中心句）

Students should learn how to respect teachers and get along well with classmates. Some students like eating fast food Which can cause obesity. If they do not realise these problems, their education and career can be affected adversely.

例如主体第三段：In my opinion, students cannot be successful if they are not able to distinguish right from wrong.（中心句）

Students should learn how to respect teachers and get along well with classmates. Some students like eating fast food Which can cause obesity. If they do not realise these problems, their education and career can be affected adversely.

分析：学生知道如何尊重老师，和同学和睦相处，这和题目的“分辨对错”有什么联系呢？然后学生知道这些，对他们的成功又有什么帮助呢？文中对此都没有很好的解释。

总结

2. 不要举不相关的例子

所谓不相关的例子，就是举例让人不知道这个例子和观点以及题目有什么联系

如何修改?

可以改成:

Students who learn politeness and social rules may understand how to respect teachers and get along well with classmates, and because of this, they will also be able to develop a strong working relationship with colleagues once they start working. This is the key to career achievement.

很多同学在举例中经常用一些中国的例子和拼音词，如Taobao等

分析：

这类例子不好

原因时考官未必知道这些在中国家喻户晓的名字，很难有认同感

总结

3. 尽量不使用中国的例子

总结

3. 尽量不使用中国的例子

一定要用的话，需要解释一下

可以改成这样：

Taobao, **one of the biggest E-commerce websites in China**, has attracted many online shoppers.

WRITING TASK 2

You should spend about 40 minutes on this task.

Write about the following topic:

> ***Some people believe that it is best to accept a bad situation, such as an unsatisfactory job or shortage of money. Others argue that it is better to try and improve such situations.***
>
> ***Discuss both these views and give your own opinion.***

Give reasons for your answer and include any relevant examples from your own knowledge or experience.

Write at least 250 words.

总结 **4. 尽量不使用自己个人或朋友的经历作为例子**

常见举例错误:

1. 和前面中心句限定不一致的例子
2. 不相关的例子
3. 中国的例子
4. 尽量不使用自己个人或朋友的经历作为例子

对比论证

即将两种事物进行比较和对比之后，使结论映衬而出的论证手法

一般有三种方式：

a. 与对立面对比

b. 假设对比

c. 今昔对比

a. 与对立面相比

真题举例1

In some countries young people are encouraged to work or travel for a year between finishing high school and starting university studies. Discuss the advantages and disadvantages for young people who decide to do this.

分析：题干说的是**学生被鼓励去休间隔年**，它的对立面显然是**不休间隔年的学生。**即直接上大学的学生。

主体段:

The reasons for this trend may involve the recognition that a young adult who passes directly from school to university is rather restricted in terms of general knowledge and experience of the world. **(中心句)** **By contrast,** those who have spent some time earning a living or travelling to other places have a broader view of life and better personal resources to draw on. They tend to be more independent，which is a very important factor in academic study and research，as well as giving them an advantage in terms of coping with the challenges of student life.

点评：两句之间用对比逻辑连接词**by contrast**衔接

确定：C

真题举例

Some people think that university should not provide theoretical knowledge，but give practical training that is beneficial to society. To what extent do you agree or disagree with this statement?

主体段:

第一部分（中心句）：

A毕业后需要经济来源　B技能培训给学生竞争优势　C大学应该提供技能培训

第二部分（假设对比）：

如果不提供技能培训+不好的结果

First of all，the primary concern for most students entering university is the **attainment of practical skills and knowledge** which will give them a competitive edge once they enter the job market. This is due to the fact that the majority of students will immediately begin **searching for a job**, in order to **earn money** and **support themselves** after graduation. **If universities neglect the need for marketable skills, their students will be unable to find suitable positions, resulting in higher unemployment.**

假设对比

中心句+论证：观点（大学教技能更重要）

假设对比：假设（如果不学技能）+ 带来负面结果

假设对比用词总结:

If..... / Without A, B....

注意:

If: 在这里描述的是一个条件，也就是假设有这个东西，就会.....

时态上从句**一般现在时**，主句**将来时**

Without: 是介词，后面不能加句子

练习

1. Instead of asking the government to bear the cost of higher education, students should pay tuition fees themselves. Do you agree or disagree with this statement?

观点：同意，学生应该自己交学费

主体段

假设对比：如果上大学免费，他们就会认为理所应当，

负面效果： 并且时不时挂科

主体段

They understand the financial cost of completing a degree, so they make a conscious effort to finish all assignments and pass all exams in order to gain the qualification on time.

假设对比： if young people have free access to university education, they will possibly take it for granted

负面效果： and fail exams from time to time.

c. 今昔对比

即过去和现在的对比

真题举例

People today can perform everyday tasks such as shopping, banking or even business transactions, without meeting others face to face. Is it a positive or negative development?

主体段： It has become evident that completing tasks without having to meet people face-to-face is very efficient.（中心句）**Previously**，if people wished to buy something，they had to travel to the store that stocked the goods they wanted；**Yet with the advent of online shopping**，almost everything a person may need can be bought online and delivered at a cheaper price.（过去和现在对比一个具体情况：购物）

分析：主体段中心句为科技让生活更有效率，以过去和现在的购物方式进行比较。需要注意的是，今昔对比先写过去还是现在无所谓，哪一方多写哪一方少写也无所谓，关键是如何有效展开。如上所示，今昔对比依赖**举例对比**或是**因果对比**。另外，要注意时态变化（尤其是分析过去的时候，注意使用过去时）
